The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Shigyo.

Shigyo discloses a mold device comprising a bottom surface 5 for producing a bored portion of a molded product, provided on a parting line surface of the mold, a vacant space provided between surfaces 6 and 8 (Fig. 3), the vacant space being connected to a gas vent.

Claims 3-6 are allowed.

Applicant's arguments with respect to claims 1 and 2 have been considered but are moot in view of the new ground(s) of rejection.
